## A20. OPTIONAL CALLING PLANS

### A20.1 General (Cont'd)

#### A20.1.1 Description Of Service (Cont'd)

##### D. Saver® Service (Cont'd)

7. Resale or shared use of Saver® service is permitted. Use of the service is subject to regulations in this Section and in Section A2. of this Tariff, with the exceptions of A2.2.1.A. and A2.2.1.B. which restrict the use of service and prohibit payment to the customer by another for use of the service.
8. Two-Way WatsSaver® service is offered in connection with outward dialed calling as described in 3. preceding and with inward customer dialed station-to-station calling. By subscribing to Two-Way WatsSaver® service, the customer agrees to be responsible for all outward toll calls (as described in 3. preceding) and all incoming intrastate, intraLATA toll calls. The service is offered only where facilities and billing capabilities exist.

##### E. Business Saver® Service

1. This plan is available to business customers only and is completely optional.
2. Business Saver® Service provides the customer with discounts based on their total monthly toll usage. Three options are available; Month-to-Month, 12-Month Term, and 24-Month Term. The percentage discount associated with each option is described in A20.3.10.
3. The discounts apply to Message Telecommunication Service (MTS) usage rates as described in A18.3.1 of this Tariff. The discounts do not apply to Optional Calling Plan Calls, local exchange service charges, Directory Assistance charges, 976 charges, operator handled surcharges, or local exchange calls, including Area Calling Service. (T)
4. The discounts are applied at the billing account level and are applied after the application of the time-of-day discounts as specified in A18.3.1 of this Tariff. (T)
5. The discounts apply only to usage incurred after the service effective date for the option.
6. If the subscriber terminates a plan option prior to the term commitment (12-Month Term and 24-Month Term only), a termination liability as specified in A20.3.10 will apply. During a 90-day grace period after subscription, the customer may disconnect the service without termination liability.
7. No minimum amount of monthly toll usage is required to subscribe to Business Saver® Service.

#### A20.1.2 Reserved For Future Use

### A20.2 General Regulations

#### A20.2.1 Liability Of The Company

Adjustments will not be applicable on Optional Calling Plan service until the subscriber has used a minimum of one hour's service in a given month.

- C. (DELETED) (D)
- D. A customer may not subscribe to both a two-way plan and a one-way plan to the same terminating exchange during the same billing month.
- E. Except for Saver<sup>®</sup> service, as specified in A20.3.8, plan usage time is accumulated by completed calls in minutes and seconds with a minimum connection time applicable of one minute. Usage time for any given billing month on two-way plans will be accumulated based on when usage data for calls in the reverse direction are available for computer processing rather than the date when made.
- F. The originating time of connection determines whether a call is included in the subscriber's optional calling plan.
- G. Individual message detail is not included as part of the service, except for Saver<sup>®</sup> service, as specified in A20.1.1.D.
- H. Except for Saver<sup>®</sup> service, as specified in A20.1.1.D. preceding, Optional Calling Plans do not include automated or operator-serviced calling card, person-to-person, collect, conference or other calls requiring operator handling. For all Optional Calling Plans, an operator will:
  - 1. Reach the called telephone number, when the customer reports making an unsuccessful attempt for reasons other than a busy, don't answer or wrong number condition, or

- I. A customer may not subscribe to more than one Optional Calling Plan that covers the same time period and geographical area.

**A20.2.3 Use Of Service**

The service is furnished subject to regulations in Section A2., including those regulations which restrict use of the service to communications in which the customer has a direct interest and prohibit payment to the customer by another for use of the service, except as specified in A20.1.1.D.7.

**A20.2.4 Minimum Contract Period**

The minimum contract period is one month, except as specified in Section A6. of this Tariff, when a two-way subscriber has a foreign listing printed in the distant directory which indicates no charge applies for direct dialed calls to his number.

- B.** Budgeting Plan (Business). Depending upon the Option selected, a customer may use up to an initial block of time of toll calling per billing account for a fixed monthly rate. In the same billing period, usage which exceeds the initial block of time will be billed on a per minute of use basis. At the customer's option, multiple accounts of a customer may be billed on the same bill, including accounts that represent separate locations *and accounts that represent residential service*. However, for the account to be eligible for the service, all services in the account must be billed on the same bill. Because this service is account based, partial billed to numbers (BTNs) are not eligible for the service; e.g., the consolidation of toll usage from multiple BTNs without the consolidation of all other service elements associated with those BTNs is not allowed.
1. Method of Determining Monthly Usage Charges
- a. Usage is determined for each call based on minutes and tenths of minutes (or fraction thereof), with a minimum call duration of 30 seconds. This value is then multiplied by the rate per minute for the rate option selected by the customer. The resultant amount is truncated to whole cents for each call.

Where facilities exist, customers subscribing to these plans may elect a billing arrangement whereby separate billing will be rendered to specified locations including a summary of total aggregated usage provided to the main billing location. The customer at the main billing number must agree to be responsible for the minimum monthly settlement amount.

2. Due to billing requirements for the Aggregated Plan, the following restriction applies:

a. Each plan option is available on a Revenue Accounting Office (RAO) basis only; i.e., a customer must select from the available plan options for each RAO which provides billing for specific geographic locations within the Company's serving area.

**A20.3.9 Custom Rate Plan**

**A. Description of Service**

1. Custom Rate Plan is an Optional Calling Plan offered to residential customers and is applicable to intrastate intraLATA long distance calls originated and terminated in the customer's home state. Eligible calls include those dialed on a Station-to-Station basis (as either Dial, Dial Calling Card, or Operator) or on a Person-to-Person basis. These four classes of calls are defined in Section A1., Definition of Terms.
2. Individual message detail is included as part of this service

**B. Timing of Messages**

1. Initial thirty second rates given in the rate schedule in E.3. following are for connections of thirty seconds or any fraction thereof. All additional one-tenth minute rates given in the rate schedule in E.3. following are for each additional one-tenth minute or any fraction thereof that the connection continues beyond the first thirty seconds.
2. The time at the beginning of each billing increment determines the applicable rate period for that billing increment. The time observed at the rate center of the calling station applies, whether the call is originated as sent-paid or collect.
3. On Station-to-Station calls, chargeable time begins when connection is established between the calling station and the called station, Miscellaneous Common Carrier mobile radio system, or PBX system.
4. On Person-to-Person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.
5. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
6. Chargeable time does not include time lost because of faults or defects in the service.

**C. Reversal of Charges (Collect Calls)**

1. Collect calls are permissible for all telephone calls provided the charges are accepted at the called station.
2. The regularly established Operator Station-to-Station or Person-to-Person rates of A18.3.1.B.3 apply.

**D. Rates Applicable on Certain Holidays**

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day, and Labor Day, the holiday rate applicable is the discount rate in E.4. following.

**E. Rates and Charges**

1. There is no monthly recurring charge for this service.
2. Charges for each eligible message are determined as follows:
  - a. The initial billing increment for telephone connections between all points is thirty seconds. Additional billing increments are in one-tenth minute increments. Initial thirty second and additional one-tenth minute rates for all messages are specified in the Basic Rate Schedule Table in 3. following.
  - b. If any portion of a message occurs in the discount rate period, the Basic Rate Schedule charges are discounted, as specified in 4. following.
  - c. For any Dial Calling Card Station-to-Station, Operator Station-to-Station, or Person-to-Person message, the applicable Billing and Operator Surcharges specified in 5. following are added to the Basic Rate Schedule charge.

b. Day Rate Period = Full Rate = Peak Period

Discount Rate Period = 50% Discount = Off-Peak Period

c. Discounts for the discount rate period are expressed as a percent reduction of the Basic Rate Schedule charges (in 3. preceding). The discount is applied to the total Basic Rate Schedule charge for that portion of a message occurring within the reduced rate period. When application of the discount results in a fractional charge, the amount will be rounded down to the lower cent.

d. No discount applies for that portion of a message occurring in the Day rate period.

e. When a message spans more than one rate period, total charges for the billing increments in each rate period are calculated and the results for each rate period are totaled to obtain the total message charge.

##### 5. Billing and Operator Surcharges

a. For station-to-station (Dial Calling Card and Operator) and person-to-person messages, the applicable Billing and Operator Surcharges shown in A18.3.1.B. are in addition to the Basic Rate Schedule charge for that message. Discounts do not apply to the Billing and Operator Surcharges.
